PROFESSIONAL EXPERIENCE

Software Development Engineer Intern

Zaggle Prepain Ocean Services Ltd

05/2026 – Present
Hyderabad

- Developing and maintaining enterprise integrations between internal and external systems, enabling automated data exchange and business workflows.
- Building backend services and APIs for integration solutions, including authentication, data transformation, validation, and error handling.
- Contributing to AI-powered automation initiatives by integrating LLM-based capabilities into existing business workflows and internal tools.
- Collaborating with product, engineering, and business teams to design, test, and deploy scalable software solutions in production environments.

AI Engineer Intern

DICE Enterprises Pvt Ltd

12/2025 – 04/2026
Pune

- Developed AI-powered applications including ReviveDesk (multi-agent sales recovery platform) and a repository intelligence system for codebase analysis and PRD generation.
- Built RAG pipelines, AI agents, semantic search workflows, and backend APIs using Gemini 2.5 Flash, LangGraph, FastAPI, and Supabase pgVector.
- Implemented sentiment analysis, objection detection, root-cause analysis, and code intelligence capabilities to support business and engineering teams.
- Automated CRM documentation and meeting intelligence workflows, reducing manual effort by 90% and improving CRM data completeness from 62% to 97%.

SKILLS

- Programming Languages - Python, Java
- AI/ML - Machine Learning, Deep Learning, NLP, Transformers, PyTorch, TensorFlow, Scikit-Learn
- GenAI - LLMs, LangChain, LangGraph, RAG, Multi-Agent Systems, Prompt Engineering, AI Agents, Vector Databases
- Backend Development - FastAPI, REST APIs
- Databases - PostgreSQL, MySQL, MongoDB, Supabase, pgVector
- Cloud and Version Control - GCP, Azure, Git/Github
- Data Analytics & Visualization - Pandas, NumPy, Power BI, Tableau, Looker Studio, Matplotlib, Seaborn

PROJECTS

ReviveDesk | Gemini 2.5 Flash, LangGraph, FastAPI, Supabase pgVector, RAG

- Built a multi-agent sales intelligence platform to identify and revive stalled B2B opportunities using CRM and meeting data.
- Developed AI agents for company research, sentiment analysis, objection detection, and automated sales recovery strategy generation.
- Implemented deal scoring using engagement history, sentiment trends, and business signals to prioritize recovery opportunities.
- Automated meeting intelligence and CRM documentation workflows, significantly reducing manual effort and improving data quality.

CodeInsight AI | Gemini, LangGraph, FastAPI, RAG, Vector Search

- Developed an AI-powered repository intelligence system for codebase understanding, engineering onboarding, and software maintenance.
- Implemented semantic code search and repository-aware retrieval to assist PRD generation and feature analysis.
- Built RCA workflows that identify potentially impacted files, trace probable error sources, and recommend corrective code changes.
- Enabled faster developer productivity through AI-assisted code navigation, debugging support, and contextual engineering insights.

AI Interviewer | LangGraph, FastAPI, Supabase, Llama

- Developed an AI-powered interview screening platform using LLMs to conduct and evaluate technical and behavioral interviews.
- Built multi-agent workflows with LangGraph for interview orchestration, response analysis, and candidate assessment.
- Developed FastAPI backend services and integrated Supabase for session management, scoring, and data persistence.
- Implemented adaptive evaluation, fraud detection, and role-specific scoring to generate automated hiring recommendations.

EDUCATION

M.Tech Dual Degree (Artificial Intelligence and Data Science)

School of Data Science and Forecasting, DAVV
CGPA - 9.3

2021 – 2026
Indore

12th

St. John Higher Secondary School
Percentage - 96%

2020 – 2021
Rau

ACHIEVEMENTS

- Qualified **GATE 2025 (Data Science and Artificial Intelligence)** with **AIR 3219**.
- Awarded Mukhyamantri Medhavi Vidyarthi Yojana Scholarship by the Government of MP for outstanding performance in Class XII.
- Google Cloud Career Practitioner Program Participant.
- Google Cloud Study Jams 2023 Participant.

CERTIFICATES

- SQL for Data Science
- Python for Data Science
- Foundations: Data, Data, Everywhere
